

TEMPUS WEALTH

your advice for life

Farewell 2020!

It's been a massive year for all in so many ways and all of our team at Tempus are looking forward to a well earned break. We hope that you and your families are all able to do the same and put your feet up and relax for a while.

2021 is a year of change for Tempus with the end of this month bringing the retirement of two of our advisers. Bill Webster, founding partner of Tempus Wealth and Murray Bennett, Director of WSIB and GM of the Financial Planning division before joining Tempus are calling a close on their financial planning careers. Bill having been in the industry for 40 years and Murray for 34 years have most of their original clients to this day which is testament to the people they are – loyal, caring and always looking out for their clients and ensuring that they are well looked after. There's not enough space in this newsletter to do them justice in their contribution to the financial planning profession, this business and their clients – we will miss them greatly and wish both of them well on their new beginnings, they won't be strangers to Tempus!

"We are pleased to welcome Mara Elgammal to our team replacing Michael who has now left to pursue a role in the City. Mara brings a wealth of experience to Tempus having worked with NAB Private Bank and JB Were for over 10 years. She is assisting Tim D'Astoli and Todd Tudor-Stack in all client matters and is looking forward to being on board for 2021.

Our article this month is something to ponder over the break with your newly graduated children – some useful information for them to consider! They are never too young to get advice and set them on a good solid path from the beginning!

From all of us here at Tempus Wealth, we wish you a very Merry Christmas and look forward to working with you in the New Year. Our office will be closed from Monday, 21 December and return on Monday, 11 January 2021 – refreshed and ready to tackle whatever 2021 brings.

Investing basics for first timers

The students of 2020 are graduating to the adult world in one of the most uncertain times in recent history amid recession, pandemic and global political tensions. In times like these, knowing the basics of how to get started down the road to prosperity is more important than ever.
