

Celebrating Milestones and New Beginnings

This Month, we celebrated a significant milestone for Todd Tudor-Stack on his 10th Anniversary of working with Tempus. Todd started with Tempus in October 2014 - fresh out of Uni and new to the Shire. After supporting Bill Webster and Colin as their Client Service Manager, he became an adviser in 2017 and has built strong, lasting relationships with all of his clients. Congratulations Todd, we hope you and Zoe enjoy celebrating this milestone at Sea Level. Here's to many more successful years ahead with Tempus!

We have also welcomed Angus Scott to our team as Client Service Manager. Angus has taken over from Brad Querzoli who has moved on to pursue his chosen career with the Fire Brigade. His expertise and enthusiasm make him a great addition to the team, and he is looking forward to working with Colin and his clients. Brad is not lost to Tempus, he will be coming back for special projects as his shifts allow!

As October draws to a close and it being Breast Cancer Awareness month, if you've been "meaning to book" now is the perfect time - [click here](#) to schedule your appointment today. Early detection saves lives!

The image is a promotional poster for BreastScreen NSW. On the left, there is a pink background with the NSW Government logo at the top. Below it, the text reads: "October is Breast Cancer Awareness Month". A call to action says "Be a friend. Tell a friend about the importance of breast screening. Early detection saves lives." It also includes a QR code, the phone number "13 20 50", and the website "breastscreen.nsw.gov.au" with social media icons for Facebook and Instagram. On the right, there is a photograph of three smiling women of different ages, with the "BreastScreen NSW" logo in the top right corner of the photo area.

How investing regularly can propel your returns

Even investing small amounts on a regular basis will compound returns over time. Among many other things, the theoretical physicist and Nobel Prize winner Albert Einstein had a strong grasp of mathematics, particularly around the power of compounding interest returns. "Compound interest is the eighth wonder of the world," said Einstein. "He who understands it, earns it. He who doesn't, pays it." They were wise words, and they equally apply to any investments that receive income returns and allow additional amounts of money to be added on an ongoing basis.
